This paper is kept on file at H. C. Drake's Advertising Agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

LOCAL NOTES.

H. B. Maxon is around after an illness of two weeks.

Senator Ingalls is after the scalp of the Canadians.

The new time table will surely go into effect on the 10th of February.

Goblet says the war talk in Paris is the work of stock speculators.

H. Gerwein one of the best citizens of Benson is visiting this city on business.

The Knights of Labor of Tombstone are going to start a newspaper they need one badly.

Mr. B. S. Coffman, of the Rattlesnake mine, desires to employ six good miners for his mines at once.

A complete press report will be found in the columns of the EPITAPH this morning.

Mr. R. Clifford, a former resident of this city came up from Sonora, on business.

Professor Foote arrived last evening from Bisbee bringing with him a large amount of splendid specimens from that camp.

There is a letter in the post office for Bill Ritchie. It is probably from Cleveland offering him a position. Go and get her Bill.

Fred Wald of the Philadelphia Beer Hall has been sent some fine specimens of silver ore from Stein's Peak. He has them on exhibition.

The sudden re-occurrence of pleasant weather, and as clear and fine as Italy's best, yesterday had the effect of doing away with the cold snap.

There has been but little frost this winter, and vegetation has already begun to sprout. Arizona's climate challenges the world.

O. D. Crocker, a gentleman largely interested in the Cananea mines, is here from Cleveland Ohio, and is a guest at the Occidental hotel.

The president will in all probability appoint Governor Ireland of Texas as one of the Commissioners of Interstate Commerce.

The examination of Tenley, who is charged with blowing up the residence of J. S. Clark was commenced before Judge Easton yesterday.

A new evening paper has been started in San Bernardino called the Gazette the names of the proprietors are Nash, Buck and Jones. It is a neat little paper and bears evidence of success.

Omaha World: Kind-hearted people who wish to send presents to the Spies-Van Zandt wedding should be careful not to send any neckwear. It might prove unpleasantly suggestive.

President Cleveland has signed the electoral count bill and the Inter-State commerce bill, the latter having been declared constitutional by Attorney-General Garland.

Our old friend Col. Dean was the recipient of a nice little windfall yesterday in the shape of a \$1500 check for property sold in San Francisco recently. We are glad of the Colonel's good fortune.

Much Ado About Nothing.

Our neighbors of the Democrat were slightly incorrect in their statements in reference to the trouble of Mr. Levy, the "poor abused" drummer they prate so lovingly about. The facts in the case, as near as an EPITAPH reporter could ascertain from our worthy Chief of Police, George Oakes, were as follows: Mr. Levy having occasion to visit Bisbee in the pursuit of his calling, and as a natural consequence sought out the stage man for accommodations. Mr. Bradshaw, the proprietor of that line, is known far and wide as one of the very best men in the camp, generous to a fault. The name of Mr. Levy was placed upon the way-bill of the Bisbee stage line, along with two other strangers, but Mr. Levy concluded he would hire a private conveyance, which he had a perfect right to do, but he did not only do that, but he induced the other two passengers to take passage with him, at half the stage fare. This is not the action of a sensible business man, so the three took passage in a private conveyance, leaving the baggage of the drummer to be brought by the stage line, and here's where the trouble began. When Mr. Bradshaw presented the bill for the transportation of the baggage the worthy drummer registered a protest against the price charged, which Mr. Bradshaw assured him was the regular charge, but he would not be content, and some harsh words passed between the two. Mr. Bartholomew passing by, overheard the loud talk, and asked the men to desist, which was clearly the duty of Mr. Bartholomew, and had he done otherwise he would have been unworthy of the position he occupies. The men stopped for a time, but shortly after came together again and a quarrel was in progress, when the same officer once more interfered to protect the peace, and told Mr. Levy if he did not stop it he would be obliged to lock him up. This is what roused the righteous cry from the Democrat. We are satisfied that the officer simply did his plain duty, and, as to Mr. Bradshaw, the people of Tombstone with whom he has done business for the past seven years, will testify to his sterling honesty and probity of character, and just where the abuse came in the EPITAPH fails to discover.

PACIFIC COAST ITEMS.

M. C. Conroy a prominent San Francisco politician is dead.

The New York strike has not interfered with shipments of freight by the Sunset route.

The woman's suffrage law of Washington Territory has been declared unconstitutional by the Territorial Supreme Court.

Miss Calhoun to whom Senator Hearst's son is married is a native of San Jose and is said to be a lady of culture and intellect.

O. R. Putney was killed in a snowslide at Bay Horse Idaho. His brother is in Los Angeles. Deceased was a personal friend of Governor Adams of Nevada.

Rain has fallen as far south as San Jose. In some places it has been very heavy. In San Francisco the fall is 2.22 inches for the 24 hours previous to last night.

An engine on the Santa Fe road after being buried two years in the sand near the Rio Grande river at Randall station N. M. is being taken out in a good state of preservation.

Charley Smith, and Ex Sheriff Hatch, have returned from Stein's Peak. Charley says that everything is looking well there. He reports that Herbert Gage, has discovered a splendid prospect within two hundred yards of the railroad depot at Steans Pass the shaft is about ten feet deep and the ledge is gitting wider, and is remarkable rich. Charley, thinks that it will prove to be a splendid property.

Newly elected Member of Congress (to a committee of the Woman's Suffrage Association): "I will present your bill ladies, before the house, but you must remember that every voter must be 21 years old, or over that age to vote."

Middle-aged Committeewoman—"Oh, dear me, girls, we never thought of that; we had better let it go a few years until we are old enough."

A Philadelphia blacksmith has testified before a committee of New Jersey legislature that he was paid \$10 by Democrats to pick the ballot box and make keys to it. The Republicans think they will secure evidence to show that the votes were so changed that a Democrat was elected over a Republican.

The Salvation Army have invaded Tucson. It's no use, brothers, you might as well vacate. Salt can't save Tucson. She is destined to go to the dogs. Not even Governor Zulick will condescend to look at her best citizens. Whilst he is appointing the hardy sons of Maricopa by the dozen, Tucson is left to paddle her own canoe. We would suggest to the praying women to come to Tombstone, as we are a bad lot here. Our floating population made Prescott heidious, and gave the Legislature the measles all in the short space of three weeks. We will guarantee to at least give the outfit the measles, if nothing more, and probably we can do a little better by them than that.

Silver men in Congress declare that Secretary Manning has violated the law regulating the issue of United States notes, and has also, it is alleged, failed to make purchases of silver bullion every month as required by the Bland act. They are talking of trying to impeach him.

Professor Foote brought in from Bisbee last evening some fifteen hundred pounds of fine copper specimens which he will place on exhibition in London. The professor is loud in his praises of the kind treatment he received from the residents of Bisbee.

Mr. W. D. Coleman has purchased the America Bakery and will in the future conduct that business. Mr. Coleman is a splendid business man and will build up a fine profitable trade in this new business.

We heard a remark last night from one of those "floating population" who had returned to Tombstone and had not found the "promised land" elsewhere, that a man does not know where to go to hence he had returned to Tombstone.

Prescott has got the — — — and measles, and Tucson has got a praying band. Phenix is between the two fires, go north brothers go north, we are all O. K. up here in this mountain city.

Chas Talbott night clerk of the Cayoso hotel, Memphis, who Tuesday morning robbed Fany Davenport of her diamonds, valued at 20,000, has been arrested in Kansas City. All of the jewelry and \$100 in money have been recovered.

The regular monthly meeting of the Hook and Ladder Company will take place this evening. All members are requested to be present.

The disbanding of an army corps or two would have more weight than all the protestations of France and Germany that they are in favor of peace.

The Rattlesnake mine is being "painted red" and otherwise improved. A home for the superintendent will soon be built.

A report is out that the finest body of ore recently struck in the Tombstone mines is now being developed at the Rattlesnake mine.

H. G. Howe is the busiest man in Tombstone. Mr. Howe is a practical surveyor, and very competent in his profession.

Owing to heavy and continual mountain storms the press reports of the Pacific coast will be light for a few days.

Sandy Bob leaves for Bisbee to-day.

Capt. Rafferty closed his saloon yesterday.

There were six passengers on the Bisbee stage last night.

J. M. Nash is in the butcher business in San Bernardino.

A politician is honest when all other means have failed.

Thos. Baker and J. J. Huffaker, of Tres Alamos, are visiting the city.

The EPITAPH will publish the correct time schedule of the S. P. R. R. in our next issue.

It is rumored that one of Tombstone's young gentlemen will soon pay a visit to California with matrimonial intentions.

Postponement of Paper Social.

For various reasons the Paper Entertainment has been postponed until the evening of the 16th inst. The ladies hope to give a very enjoyable affair, and anticipate a very liberal patronage by our public. Admission only 25 cents. Don't forget. It will surely come off Wednesday evening, 16th inst.

Notice.

All parties holding tickets for bread on the American Bakery are respectfully requested to present the same for exchange either at the bakery or to the wagon.

W. D. COLEMAN,
Proprietor.

ARIZONA MINERALS.

Specimens Wanted for the American Exposition in London.

The mineral resources of Arizona as a general thing are little known outside of our own Territory, whilst it is universally admitted that we have one of the greatest mineral Territories in America, yet circumstances in the past have been such that we could not avail ourselves of the magnificent gift which nature has stored in our midst, besides the Tombstone district which is the best known mining section of our Territory. There are great mineral deposits in every county in Arizona. All that is needed at the present time is a little infusion of the energy and enterprise of older mining regions, with this will come an influx of capital which will result in placing our Territory in the front rank of mineral producing countries.

NOW AN OPPORTUNITY is offered our citizens who have the best interests of our Territory at heart to give her a lift in the proper direction. This splendid opportunity may never again be within their grasp. Professor A. E. Foote of Philadelphia, whose splendid mineral exhibit at New Orleans was the admiration of the world will now turn his attention to the Mammoth American Exposition, which will commence in London May next. The Professor will undoubtedly present to the admiring gaze of the world at that exposition.

THE FINEST DISPLAY OF MINERALS ever exhibited. If the mining men of Arizona desire to have samples of our wonderful mineral deposits exhibited at that Exposition an opportunity is now offered. Professor Foote returned last evening from Bisbee with a large and a well selected lot of specimens, which he will use in his great mineral display at London. There never was a better or a more fitting time to exhibit our great mineral worth than the present. So we once more suggest to our people the advisability of prompt and energetic action in this matter liberal and judicious advertising in the manner mentioned will add greatly to our Territorial prosperity.

Herrera and McClure's store has been closed, but the why and wherefore is unknown.

General Thomas J. Brady, of star route notoriety, is reported to be almost broken down by adversity.

The Beginning Of The End.

The beginning of disease is a slight debility or disorder of some of the vital organs, the stomach, the liver or the bowels usually. There are despicable symptoms, the liver is troublesome, the skin grows tawney and unhealthy looking, there are pains in the right side or through the right shoulder blade. The climax is often an utter prostration of the physical energies, perhaps a fatal issue. But if the difficulty is met in time with Hostetter's Stomach Bitters, which is always effective as a remedy, and it should be resorted to at an early stage, there will be no reason to apprehend those injurious subsequent effects upon the system often entailed by entirely cured diseases. Far better is it, also, to employ this safe remedial agent in fever and ague and other malarial complaints, than quinine and other potent drugs, which even when they do prove effectual for a time, ruin the stomach and impair the general health.

The compliments of the season—colds, coughs, catarrhs—may be effectively delt with by taking Ayer's Cherry Pectoral. To neglect prompt treatment for these ailments is to risk consumption, which is said to cause one-sixth of the mortality of all civilized countries.

There is nothing equal to the Great Acme Remedy to restore your nerves after excessive drinking, and what is still more creditable to the remedy, it will, if used as directed, destroy the appetite for wine and stimulating drinks.

Indigestion or Constipation.

A few HAMBURG FIGS are all that is necessary for the cure of the severest cases of indigestion or constipation and one taken occasionally will prevent the development of these affections 25 cents. At all druggists. J. J. Mack & Co. proprietors, S. F.

For Sale.

All kinds of choice eggs for setting purposes. Dark Brown Leghorns, White Leghorns, Golden Poland, Silver spangled Hamburg, Black Langshang and Wyandotts. A setting of 15 of these fine eggs will only cost you \$2.50. Apply at the Can Can and give two days notice and all orders will be filled.

A. D. WALSH,
Can Can.

TWEED'S STORE

OUR MOTTO:

Live & Let Live.

GOOD GOODS

At Low Prices

Corner Allen and Fourth Streets,

TOMBSTONE, ARIZONA.

Goods for the People at Popular Prices!

H. K. Tweed desires to call the attention of the Tombstone public to his immense and varied stock of

GENERAL MERCHANDISE

Which he is now offering at prices that place the goods within the reach of everyone.

All Eastern Goods purchased direct in the East, not second hand through California firms.
